

SYSTEM DEVICES · DIN RAIL

KNX Power Supply, 640 mA

SKU ASPS-02/640.1 · DIN rail mounting

DESCRIPTION

KNX power supply, 640 mA, 4SU MDRC. Bus power with integrated choke and diagnostics for up to 64 devices per line.

Input voltage 95V-255VAC, 50/60Hz, total output 640mA: ouput 1: 30V DC, SELV with choke for KNX Bus; output 2: 30V DC, short-circuit-protection. Current level indicator. The minimum distance between 2 power supply in a line is 300m or place 5 devices between.

Installation on a dedicated breaker.

SPECIFICATIONS

SKU	ASPS-02/640.1
Mounting	DIN rail, 4SU MDRC
Output	640 mA, KNX TP
Diagnostics	Overload and short-circuit indication

APPLICATION

BUS OUTPUT

640 mA KNX line supply

DIAGNOSTIC LEDS

Overload and short-circuit status
