

CONTROLLERS · KNX SECURE

Waltz Push Button Sensor, 4 Buttons

SKU AWPB-02.S · Flush wall mounting

DESCRIPTION

KNX Secure push-button sensor with 4 buttons. A precision glass-and-metal interface that mounts flush to the wall and carries the entire room on the bus.

Elevate your home or office with the sleek Waltz Push Button Sensor with Secure, 2-Gang, combining cutting-edge technology with minimalist elegance. Crafted with a premium tempered glass panel, responsive control with a gentle tap. Subtle blue LED indicators guide you in the dark, while its modern, frameless design complements any interior style.

Perfect for smart home integrations, this switch supports multiple lighting zones, making it ideal for living rooms, bedrooms, offices, and luxury spaces. Built with safety and durability in mind, it offers fire-retardant housing, moisture resistance, and long-lasting performance.
